Job Description and Duties

The CalSTRS IT Infrastructure & Operations Division is seeking a motivated individual to work as an Information Technology Associate on the System Security Administration Team.

The IT Infrastructure and Operations Division manages the core technology infrastructure needed to support the CalSTRS business. This infrastructure includes client technology; network, servers, and storage infrastructure; and technology disaster recovery. The IT Infrastructure and Operations Division also provides technology related operational support for CalSTRS and is comprised of the following team: Client Technology Infrastructure, Audiovisual Services, Client Technology Services, Technology Disaster Recovery, Network Infrastructure, Service Desk and System & Security Administration.

The System & Security Administration Unit provides centralized system and security administration services such as user access management and administration across enterprise IT solutions.

Under the general supervision of the System and Security Administration (SSA) Manager, the Information Technology Associate is responsible for providing access to CalSTRS mainframe, web applications and various systems, ensuring proper processes are followed so only authorized personnel gain access to CalSTRS' computing environment and services. These services are utilized by multiple business areas within CalSTRS and are considered crucial by those entities.

The ideal candidate will possess the following skills:

- Demonstrated ability to quickly learn and apply new skills, tools, and technologies
- Strong analytical and problem-solving skills with the ability to troubleshoot and resolve complex techn issues

- Proven ability to collaborate effectively with cross-functional teams and build positive working relationships
- Hands-on experience using PowerShell or similar scripting languages
- Broad understanding of IT infrastructure, systems, and application support models across both cloud and on-premises environments
- Excellent verbal and written communication skills, with the ability to convey technical information clearly to diverse audiences
- Ability to create and maintain technical support documents for all levels of technical staff and management
- Experience using Microsoft Active Directory, Microsoft Entra ID

Every 12 months, based on performance evaluation, employees may receive a 5% salary increase until they reach the maximum salary for the position.

In July 2025, the State of California implemented the Personal Leave Program 2025. This program reduces employees' monthly base pay in exchange for paid leave credits. This position is subject to PLP 2025 and will have a monthly base pay reduction of 3% in exchange for 5 hours of leave credits for the duration of the program. The salary ranges shown on this job posting do not reflect the reduced amounts.

Does this opportunity seem right for you? If so, see the **Application Instructions** section below and apply now.

You will find additional information about the job in the **Duty Statement**.
