Section II **JOB DESCRIPTION**

Indicate the major functions and associated duties, and the percentage of time spent on each (list higher percentages first). Essential functions assigned less than 5% should be combined with other task statements. The total percentage of all functions, including marginal, must equal 100%.

DESCRIBE THE ORIGINAL SETTING AND MAJOR FUNCTIONS

Under the general direction of the Client Services Supervisor (Information Technology Supervisor II), the Information Technology Specialist I (ITS I) performs a variety of complex technical activities in support of the new Notary Application Program (NAP) 2.0. The incumbent will provide 1st and 2nd level desktop support such as hardware and software deployments, ensure consistent application of IT policies and procedures, and serve as the primary technical support liaison to the NAP team. The incumbent should possess a high degree of personal communication skills, and a high degree of initiative to lead and complete assigned projects; and resolve incidents using various IT related technical and problem-solving tools.

ESSENTIAL FUNCTIONS

Percentage	Description of Duty
35%	**Domains: Client Services, Software Engineering** • Provide Tier 1 and Tier 2 technical support by managing help desk tickets, diagnosing issues, and ensuring timely resolution. • Triage and assign support tickets to appropriate IT staff based on issue type and priority. • Accurately input and maintain service request details within the help desk ticketing system. • Document all customer inquiries and issues, tracking them through to full resolution while maintaining clear communication with end users. • Develop and deploy software packages; manage system updates and patch deployments to ensure secure and stable environments. • Monitor and administer IT management portals, including Microsoft Volume Licensing, Office 365 Admin Center, and security dashboards. • Perform a wide range of help desk support duties, including but not limited to: ➢ Creating and managing user accounts in Active Directory (AD) ➢ Supporting users with Virtual Desktop Infrastructure (VDI), VPN, and remote access issues ➢ Troubleshooting multi-factor authentication problems ➢ Resolving issues with local and networked printers ➢ Providing technical assistance for hardware, software, and network-related problems • Manage file permissions, security settings, and user access rights; escalate complex issues to senior IT staff when necessary. • Deliver audio-visual (AV) support for virtual and in-person meetings, trainings, and events, including troubleshooting Zoom, Microsoft Teams, and video conferencing equipment. • Guide, train and mentor IT staff to build their skills and increase their knowledge of desktop software and hardware.
25%	**Domains: Systems Engineering** • Ensure all user support is delivered in compliance with internal IT policies and security protocols • Diagnose and resolve network connectivity issues to ensure uninterrupted performance. • Investigate and troubleshoot application errors to maintain operational efficiency and user satisfaction. • Support the development and implementation of monitoring tools and alert notifications for the Notary Application Program (NAP 2.0). • Analyze and respond to security-related requests, ensuring alignment with organizational best practices. • Provide expert consultation across multiple IT domains to ensure compliance with enterprise architecture standards, IT security policies, and established business practices.

20%	**Domains: Client Services and Business Technology Management** • Develop, update, and maintain IT policies, including but not limited to password management, security protocols, and acceptable use policies. • Create, revise, and maintain IT procedures—such as ticket escalation workflows, incident documentation protocols, and service level agreements (SLAs)—to ensure end-user support aligns with internal policies and IT security standards. • Establish and maintain technical standards and procedures for the agency's office automation platforms. • Ensure all user support is delivered in compliance with internal IT policies and security protocols
15%	**Domains: Business Technology Management and IT Project Management** • Participate as an independent Project Lead, Subject Matter Expert or as a Team Member • Establish and maintain relationships with the vendor community for desktop related products, support and services. • Assist clients in determining their information technology needs and requirements. • Analyze new releases of agency standard software products prior to installation in the SOS environment. • Evaluate and make informed recommendations on IT products and services requested by program areas, based on technical feasibility, business needs, and compliance considerations.

MARGINAL FUNCTIONS

Percentage	Description of Duty
5%	**Domain: Business Technology Management and IT Project Management** • Stay current with industry trends and emerging technologies and provide informed recommendations to optimize the acquisition of products or services. • Attend technical and software skills training courses. • Attend individual and group meetings.

The statements contained in this duty statement reflect general details as necessary to describe the principal functions of this job. It should not be considered an all-inclusive listing of work requirements. Individuals may perform other duties as assigned that fall within their classification, including work in other functional areas to cover absences or relief, to equalize peak work periods or otherwise balance the workload.
