Uriah Raffer

Elk Grove, CA | 916-213-9145 | umraffer32@gmail.com

Summary

Entry-level IT enthusiast with hands-on experience with virtualization, system administration, and network configuration through academic work and home-lab projects. Familiarity with Linux/Windows environments, and experience maintaining small-scale virtualized infrastructure.

Technical Skills

Systems: Windows 10/11, Ubuntu/Debian Linux, Proxmox VE.
Networking: VLANs, L2/L3 switching, DNS, DHCP, SMB, basic firewall concepts.
Virtualization and Tools: VMware, Hyper-V, VirtualBox, Cisco Packet Tracer, GNS3

Education/Certifications

Bachelor of Science – Network Engineering and Security
Western Governor's University – 2025

CompTIA A+ (2024), Network+ (2025), Security+ (2025), Cloud+ (2025)
ITIL Foundations 4 (2025), LPI Linux Essentials (2024)

Project/Lab Experience

Home Lab System Administration

Managed Proxmox VE hosting Linux and Windows VMs.
Maintained Docker-based services including a media server and SMB file sharing.
Performed routine system updates, snapshots, and basic maintenance.

Network Configuration Practice

Built small lab networks with VLANs, inter-VLAN routing, and switch/router configuration.
Set up DNS, DHCP, file sharing, and isolated network segments for testing.
Created diagrams and documented configurations for repeatable lab builds.

Automation & Scripting

Developed basic Python 3 scripts.
Created beginner-level Ansible playbooks for multi-VM configuration tasks.
